

tesa® Anti-Slip Tapes – Product Features & Benefits

Product Features

Very strong adhesion

Strong, durable and abrasive Coating

Thick PVC backing

Water, temperature, UV & cleanser resistance

tesa® 60953 – Fluorescent

Advantages & Benefits

Good adherence to indoor & outdoor surfaces, e. g. factory floors, machines, trucks, ladders, stairs etc. in building- and construction sites, public and private areas

High anti-slip effect up to 2 years in normal, non-public areas

Hand tearable and removable in one piece, no shrinkage after application

Excellent for indoor & outdoor usage (-10 °C up to +50 °C), even with contact to salt water, e. g. on ships, yachts, landing stages etc.

Creates safe footing in shaded, or even totally dark surroundings. When charging the tape by UV-light the whole day, fluorescence will glow approx. 6 - 8 hours.

Technical Data

Total thickness [µm]	810
Adhesion [N/25 mm]	25
Elongation at break [%]	200

tesa – More Safety Step by Step

Professional Anti-Slip Solutions for More Safety
ASSORTMENT

tesa® Anti-Slip – A Step Ahead for more Safety

- Extremely strong and durable tapes
- Very strong adhesion, up to 2 years
- Resistant against cleanser, water, salt water, temperatures and UV-light

NEW!

tesa® Anti-Slip tapes are the best choice wherever secure footing and safe steps are required. These self-adhesive tapes prevent skidding and help to avoid accidents and injuries in all business fields and private surroundings.

Application areas:

- **Building- & construction sites:** e. g. scaffoldings, ladders, loading platforms
- **Public buildings:** e. g. hotels, restaurants, shopping malls, theatres, concert halls, warehouses, offices
- **Transportation:** e. g. buses, trucks, boats, landing stages
- **Sports:** e. g. arenas, audience ranks, swimming pools, humid areas and in showers

The strong abrasive aluminiumoxyd coating on an extreme stable PVC backing ensures safety step by step.
