

## tesa® SecuritySeal – Seal your boxes and pallet packaging quickly and securely

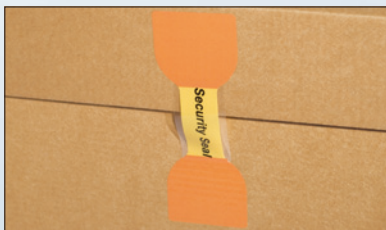

With security adhesive tapes and labels from tesa® you can immediately see whether a box or pallet packaging has been delivered intact or not.

tesa® security products are easy to attach and provide reliable protection. When opened, they are irreversibly damaged, meaning clear evidence will be left if an unauthorised person has accessed the consignment.

- Labels with client-specific security effect
- Labels customisable with printed logos, item-unique barcodes or serial numbers for Track & Trace
- Easy to process in an automated dispenser or by hand

### 1 tesa® HighPerSeal 64020/21

Box secured with tesa® HighPerSeal.

When opened, an individually customised warning appears, ...

... which remains visible even if the seal is re-closed.

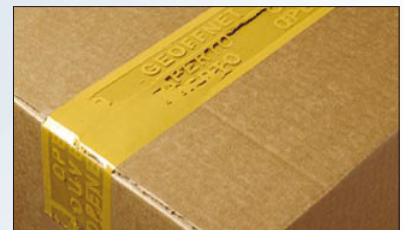

### 2 tesa® SecuritySeal 64006/07

Securely closed with tesa® SecuritySeal adhesive tapes.

When the SecuritySeal is opened, a warning appears, ...

... which remains clearly visible when closed again.

### 3 tesa® SecuritySeal 64008/09

# tesa® SecuritySeal – Transparency and security for logistics

It is not only possible to print tesa® SecuritySeal labels with logos and serial numbers, but also with item-unique barcodes. As a result, the labels can be used for track & trace purposes, thus ensuring transparency and security throughout the logistics chain.

If label barcodes are scanned every time goods are handed over, SecuritySeal offers reliable protection for all participants. Manufacturers and retailers can immediately see that boxes and pallet packaging have been delivered intact and logistics partners can consistently prove that they have delivered shipments in full and in their original packaging.

Security labels can be supplied in different formats, colours and sizes as well as with a customised security effect. In addition to the printing, the label material can also be tailored to clients' needs, thus ensuring seals are protected against imitations.
